Portfolio: aniruddha-25.github.io/Portfolio

Summary

Aspiring AI & ML Engineer skilled in Machine Learning, Data Analytics, and Full-Stack Development, with Strong Programming Knowledge in Python, Java, and C. Passionate about building Scalable, Real-World Solutions through Hands-On Projects and Continuous Learning.

Internship Experience

Suprajit Engineering Ltd. | Full-Stack Intern | Bangalore | Mar 2025 – Jun 2025

- Built full-stack web applications using Node.js, PostgreSQL, HTML, CSS, and JavaScript for Production Monitoring and Data Management.
- Automated Backend workflows, reducing Manual Data Entry by 60% and saving 20+ hours per week.
- Developed RESTful APIs to enable seamless Data Integration and Improve Operational Efficiency by 40%.

Nicozn Technologies | Frontend Developer Intern | Mangalore | Oct 2023 – Nov 2023

- Developed Responsive Front-End Web Pages using HTML, CSS, and JavaScript, ensuring Cross-Browser Compatibility.
- Created Interactive UI prototypes with Figma and Implemented Animations using GSAP to Enhance User Engagement.
- Managed Web Pages on Firebase Hosting, gaining Hands-On Experience in Deployment and Site Maintenance.

Projects

Customer Churn Prediction | Individual | Jan 2026 – Jan 2026

- Built a Django-based Machine Learning web app to predict customer churn using Customer Travel Data.
- Trained and Evaluated Logistic Regression, Decision Tree, and Random Forest models with Data Preprocessing.
- Created interactive Churn Visualizations for Demographic-Based Analysis using JavaScript.

Retailer Game Stock Advisor | Individual | Mar 2025 – Jun 2025

- Developed a Flask-based Machine Learning application using Random Forest trained on 16,600+ Game Sales Records.
- Implemented Future-Year Forecasting and Top-6 Game Recommendations with Regional Sales Breakdowns.
- Built a Responsive Web Interface with optimized data processing for fast predictions.

House Price Prediction | Individual | Oct 2024 – Dec 2024

- Built a complete Machine Learning Pipeline with Data Cleaning, Encoding, Scaling, and Feature Engineering.
- Trained and compared Multiple Regression Models, achieving a strong R^2 score.
- Developed a Flask-based web app with a responsive User Interface for real-time price prediction.

Education

Degree	Institutes	Year	CGPA
B.E. in Artificial Intelligence and Machine Learning Engineering	Mangalore Institute of Technology & Engineering (MITE)	2021-2025	7.25

Certifications

- **Machine Learning (Python) | Udemy |** Feb 2026
- **Exploratory Data Analysis for Machine Learning — IBM | Coursera |** Oct 2025

Technical Skills

Languages / Databases	Python, Java, C, C++, PostgreSQL, MongoDB, MySQL
Frameworks / Libraries	Django, Flask, Node.js, Pandas, NumPy, Scikit-learn
Machine Learning Skills	Data Preprocessing, Model Optimization, Supervised Learning
